Bulk MMS

Quick Facts

- Send pictures, videos, sound and text
- Send up to 5000 characters of text
- Send via email or through our web interface
- Calendar send option available
- Full reporting available

Bulk MMS allows you to send pictures, sounds clips, video clips and up to 5,000 characters of text!

Your MMS Media can be uploaded from the website, previewed, and sent immediately or saved to be sent on a future date.

Bulk MMS also includes a Contact List for the easy creation of individual or group Bulk MMS sends.

MMS Media can also be e-mailed to your allocated MMS email address. Once our system receives your email it will be automatically converted and delivered as an MMS to all your recipients immediately.

If you are interested in our developer solutions, we do have an API available.

Networks

We support the sending of MMS to all South African Networks.

MMS Size

MMS can be sent at a maximum of 600 KB in size, it is however recommended to keep them below 450 KB to ensure more mobile phones can retrieve the media. You only pay for the size that you send.
