

EBS

Quick Facts

- Accept payment from customers using their mobile phone
- Web Service for easy integration
- Once off or Repeat Debit Options available
- A multitude of uses
- Full Reporting available online

Introduction

Event Billing Service (EBS) or OBS as it is sometimes referred is a service offered by all mobile network operators in South Africa to facilitate an easy payment gateway from customers.

A customers cellphone account or prepaid airtime can be directly debited for any amount up to R50 per transaction with their permission.

How does the product work?

A Web service has been designed in order for developers to have the freedom to create their own custom solution. An API is available to assist with integration.

Networks

EBS is available on all South African networks.

Costs
