Introduction

Premium SMS offers you a smart, affordable and fast Premium Rated SMS solution.

Premium SMS is ideal for setting up a competition line or a survey. You are able to easily edit your service settings online, as well as receive full reporting on all received and sent SMS.

Shared Short Codes

You can get started immediately by creating up to 5 unique keywords on a shared premium short code of your choice.

For example: "SMS the keyword WIN to 32715".

You can also create multiple Premium SMS services using different short codes.

Dedicated Short Codes

You can also select from a range of dedicated premium short codes.

Having a dedicated short code will give you unlimited keywords and more flexibility for your campaign.

SMS Reply Options

You have 2 options for the automatic SMS reply. The Standard Option offers you the option of setting a standard SMS reply for each received SMS per keyword or for all keywords listed. You also have the option of forwarding the received SMS details to an email address at no extra cost.

The Advanced Option allows your Developer to create a URL that we will call for each received SMS, passing it the necessary details. This allows for total customisation and gives you flexibility with your Short Code service.

Available Bands and Revenue Share

Bands range from R1 up to R30
